Town Votes Water-Sewage Service For New Appomattox Shopping Center

PHOTO BY SHEARER ROBERTSON

Appomattox Town Council meeting Monday evening voted to permit both water and sewage services to be extended to the new shopping center now under development at the triangle marked by Route 460, 26 and 131 just west of the town of Appomattox.

Certain conditions must be met by the developers, according to the town manager, C. S. Booth, and the council meeting, itself was devoted to a long discussion of the needs of the town for a new sewage treatment plant, new sewer lines and related needs of a developing community.

Growth of population, additional housing and business and the ever-tightening restrictions by the Va. State Water Control Board has brought the town of Appomattox to a period of great concern insofar as sewage services are concerned, according to Mayor H. B. Pack.

Council was also notified that a building permit had been issued to Percy W. George to make an addition to his building and property on Rt. 460 which is being developed as an auction and sale center for all types of merchandise.

More Parking Space

There's nearly an acre additional parking at the Woodmen of the World building, Appomattox, thanks to the work of several members of the WOW including U. O. Rothgeb (left) and Charlie Perdue (right) and the cooperation of Morris Gordon and the loan of a caterpillar grader to level a section of land formerly owned by F. A. Murphy adjacent to the WOW property. WOW can use friends like Mr. Murphy and others, said U. O. Rothgeb about the project. The new land will give sports lovers more room to park as they enjoy ball games and other activities. In addition, the residence on the property will be torn down and remade into a picnic shelter, according to current plans.
